

# **COURSES & CURRICULUM**

SCHOOL OF PUBLIC HEALTH, UNIVERSITY OF LIBERIA

# UNIVERSITY OF LIBERIA

## School of Public Health

CORE COURSES		REQUIRED COURSES		
Code	Course	Concentration	Code	Course
PHLT501,	Fundamentals of Epidemiology	PUBLIC HEALTH LAB	PHLA501,	Fundamentals of Analytical Chemistry
PHLT502,	Advanced Epidemiology		PHLA502,	Microbiology – Bacteriology
PHLT503,	Biostatistics I		PHLA504,	Microbiology – Parasitology
PHLT504,	Biostatistics II		PHLA506,	Microbiology – Virology
PHLT505,	Social and Behavioral Sciences		PHLA503,	Pathology
PHLT506,	Introduction to Environmental Health		PHLA601,	Environmental Toxicology Lab
PHLT507,	Introduction to Public Health Lab		PHLA602,	Food Testing and Analysis
PHLT508,	Public Health Policy & Management		PHLA603,	Molecular Biology
PHLT513,	Outbreak Investigation and Response		PHLA604,	Water Testing and Analysis
PHLT515,	Public Health Population Dynamics Research and Related Courses		PHLA605,	Microbiology-Immunoematology
PHLT509,	Scientific Article Reading & Writing	APPLIED EPIDEMIOLOGY	AEPI601,	Research Methods I
PHLT510,	Health Research Ethics	APPLIED EPIDEMIOLOGY	AEPI602,	Research Methods II
			AEPI603,	Data Management
			AEPI605,	Public Health Surveillance
		ENVIRONMENTAL HEALTH	ENHT601,	Municipal Waste Management & Water Supply
			ENHT602,	Food Safety and Hygiene
			ENHT604,	Assessment and Planning for Public Health in the Community
			ENHT605,	Public Health Surveillance
			ENHT607,	Principles of Toxicology
			ENHT609,	Exposure Assessment & Control
		HEALTH SYSTEMS MANAGEMENT	HSMT601,	Applied Health Sciences Administration and Management
			HSMT602,	Health Economics and Finance
			HSMT/ENHT613,	Public Health Legislation, Regulation and Enforcement
			HSMT604,	Quality Improvement and Implementation Science
HSMT605,	Logistics Health Supply Chain Mgt			
HSMT607,	Health Information Systems
